

Greetings from

California

Dear Sis,

### *It's like Carson is a new city!*

*They beautifully renovated Southbay Pavilion and created a brand new look and feel to the old indoor mall. There's an Ikea and a JC Penney's. They also have one of our favorites - Mrs. Fields Cookies!*

### *Our neighborhood is much safer too!*

*What a change from the way things were! I saw a soccer match at the Home Depot Center and enjoyed an afternoon at Victoria Park. There's a weekly Farmer's Market and there are so many more upscale sit-down restaurants. There's so much to do!*

### *Some people are trying to stop all the progress.*

*A small group of former politicians and self-appointed "community leaders" are trying to get back in power. They've qualified a mayoral recall election - even though the regular Mayor's election will be in just a few months. In addition, these people have stuck Carson residents with the \$200,000 bill!*

### *We need to send them a message.*

*Please, come back to Carson soon. Our city needs your No vote and the No votes of all reasonable Carson residents. Folks like us are the only ones that can tell these people how much we like the way the city is headed. We need to vote No on the Recall so it doesn't mess up the progress that's been made.*

Love,

Your Little Brother

**Vote No on the Recall. Stop playing politics with our tax dollars.**
